

Polyamide Cable Clamps

Our range of cable clamps are designed to hold and support a variety of different power cables in a variety of situations. The clamps are all short circuit tested and can clamp single or multiple cable arrangements.

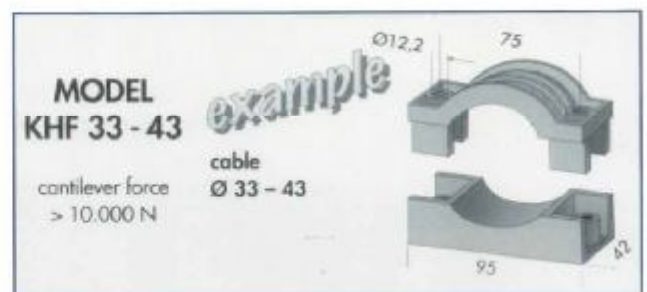

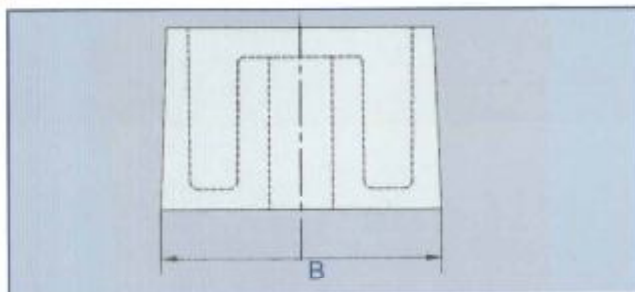

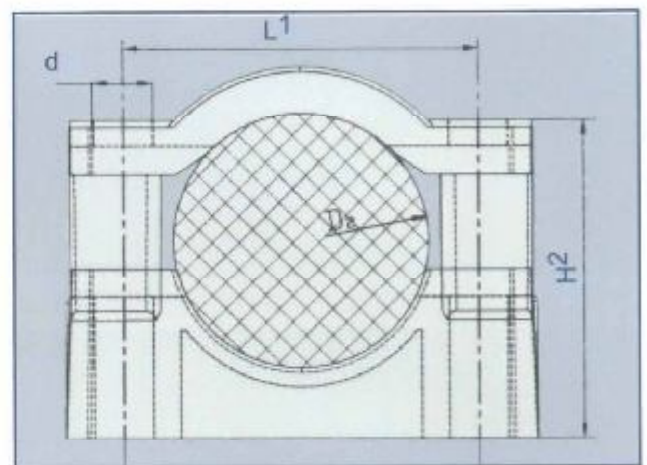

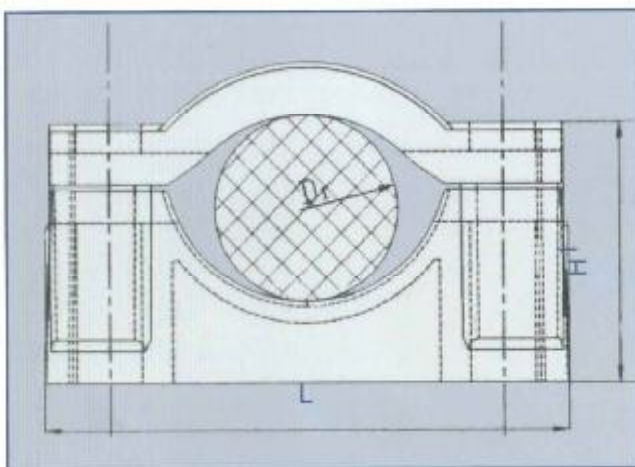

The clamps are moulded from black polyamide 6GV and are suitable for use in temperatures from -40 to 120°C. They are resistant to oil, grease and both ozone and UV radiation. All clamps can accommodate individual cable loads up to 600 amp and can be supplied with the appropriate screws and fasteners.

KHF/4 24-33	24-33	142	113.5	81	107	20	32	12.5	>25000

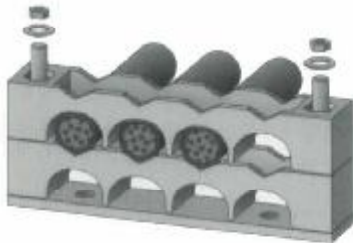

SL - Short circuit resistance load

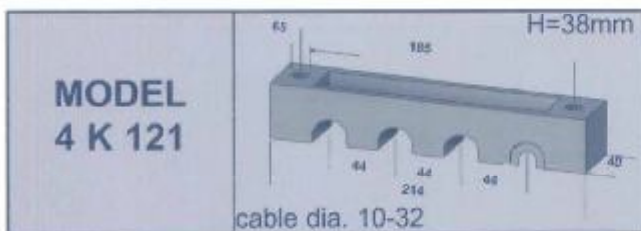

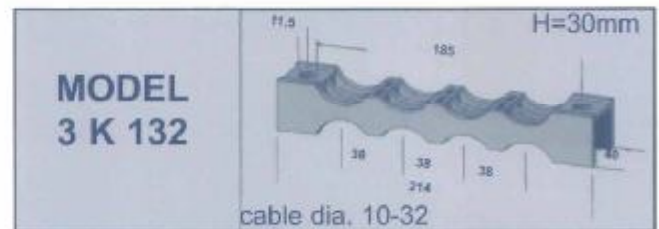

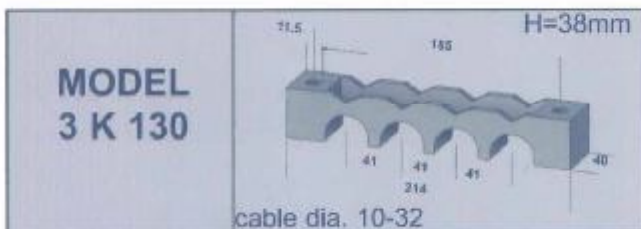

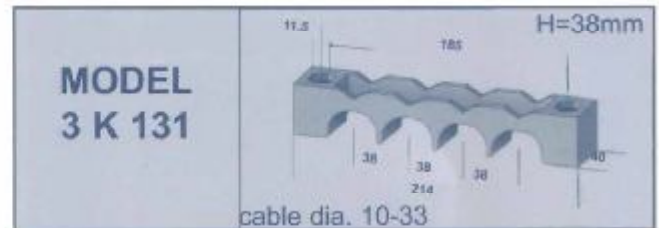

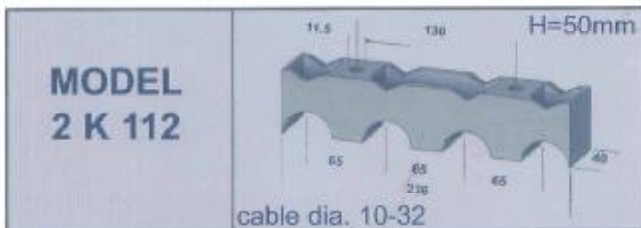

Multiple Cable Clamps

For insulated power cables in series or multiple layer combinations. Material: polyamide 6 GV black.

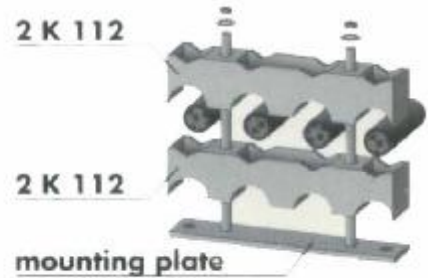

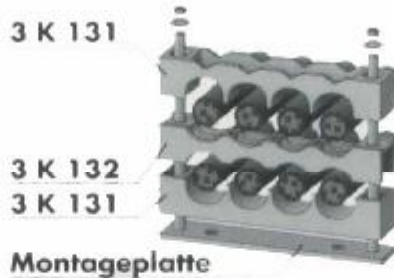

Polyamide 6GV is suitable for indoor and outdoor use from -40°C to 120°C. It is resistant to oil, grease ozone/UV radiation

Mounting Example:

with 2 blocks for 3 to 4 cables
with 3 blocks for 6 to 8 cables
for exterior dia. 10-32 mm

mounting plate with stud bolts 6,8
M10 can also be supplied.
